I would like to let you know how much the post office means to us in felpham village . Not only do we use the post office for business banking and change we use the shop for small items we need to sell in our cafe. I also use the post office personally as I live across the road and post a lot of parcels . It would be a great loss to our village if we lost it . It's beautiful having a little post office in such a picturesque village the workers are so happy and friendly . I back it 1000000 percent

Regards

Charlotte
