To Whom it May Concern

## **SAVE FELPHAM VILLAGE POST OFFICE**

The Felpham Village Conservation Society was formed nearly 40 years ago to preserve all that is great about our West Sussex seaside parish, to ensure that change is managed sensibly and to encourage a strong community spirit. We are nonpolitical and inclusive, having an open membership to every householder living within the Parish and those from without who use and value our facilities and environment. We seek to protect what is good; to improve those things that fall short; and to enhance our community wherever we can.

We very much support the Friends of Felpham group in their Campaign to Save our Village Post Office. Our Post office is the hub of our village and without it our village would lose much of its community spirit. It provides vital services to our residents, and it would appear with banks closing down all around us residents and businesses would sorely miss this facility; isolating people even further..

Our Motto is: **Preserve, Protect, Promote.**

And that is what we must come together and do **Save Our Post Office.**
